Other risks					
Injury scenario	Injury	Severity level (1-4)	Overall probability	Risk level	Risk management
Hitting sharp corners or edges	Bruising (abrasion/contusion, swelling, oedema)	1	> 1/100.000	low	The product should be used strictly as intended. Given the low likelihood and limited severity of potential injuries associated with typical use, no additional measures are warranted.
Table breaks, because of overloading	Bruising (abrasion/contusion, swelling, oedema)	1	> 1/100.000	low	The max load is stated in the AI. Given the low likelihood and limited severity of potential injuries associated with typical use, no additional measures are warranted.

We confirm with our signature, that that all foreseeable risks have been covered. We also confirm with our signature, that all information given in the safety assessment are complete and true according to the General Product Safety Regulation, the Risk Assessment Guideline and the European Commissions guide (EU) 2019/417. We will inform JYSK about any changes to the article and/or its safety assesment immediately by sending a new safety assessment.
